

Briars Hosted Exchange & Blackberry Service

Overview

Based on standard Microsoft software Briars Hosted Exchange & Blackberry service provides a complete set of tools to enable you to communicate effectively with colleagues, clients and suppliers.

Briars Hosted Exchange service is an ideal solution for companies who do not have a permanent office or wish to use the industry standard Microsoft Exchange system but wish to avoid the costs of ownership. It is ideally suited to 'virtual companies' where staff work from home, client's premises, hotels, airports – in fact anywhere in the world that offers an Internet connection.

Briars Hosted Blackberry service provides users with 'anytime, anywhere' access to their email, calendar and contacts via any compatible Blackberry device. Full wireless synchronisation of mail, calendar and contact information means any updates you make 'on the move' are immediately synchronised with your Exchange mailbox.

Hosted Exchange

- Secure internal and external e-mail via your own domain name (virus scanned)
